

DATA SHEET

(Instruction manual)

Anti - CD8 FITC

Rabbit clonal antibody - For Flow Cytometry Application

Cat. #: DB 1021 (100 tests)

Product information

Clone: N21-G

Product description: FITC Rabbit Anti-Human CD8

Reactivity: Human (Hu)

Isotype: Rabbit IgG

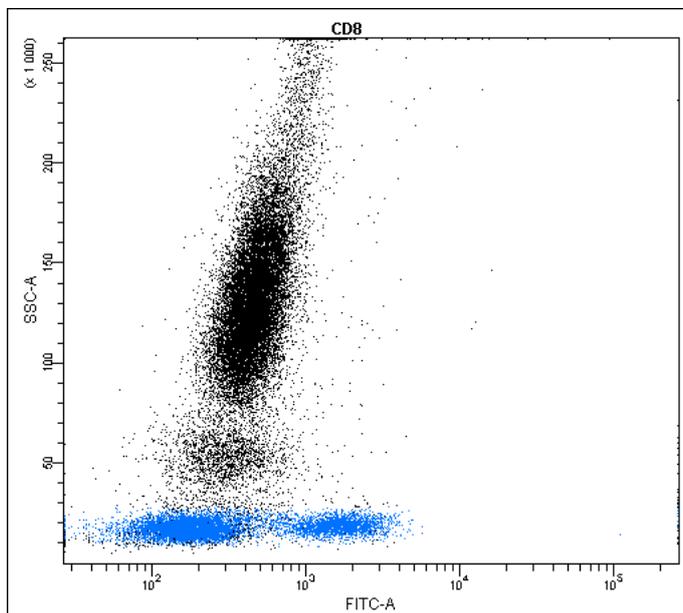

Formulation: Aqueous buffer solution containing 10mg/ml of BSA and 0.05% sodium azide.

Preparation: The antibody was prepared by in vitro cloning technology, and the monospecific product was conjugated with FITC under optimal conditions. The solution is free of unconjugated FITC and unconjugated antibody.

Storage: Store undiluted at 4°C, in the dark. Do not freeze.

Expiration: 24 months from the shipping date

Volume per test: 10 µl

Profile of CD8 expression in human peripheral blood lymphocytes analyzed by the BD FACSCanto II.

Blood cells of healthy control were stained with anti-CD8 FITC (blue; used 10 µl per test).

Important Notes

This antibody detects surface antigen.

Optimal dilution should be determined by the end user.

Use 1×10^6 cells in a 100 µl experimental sample (a test).

This product is for in vitro use only, research or diagnostic applications.

Caution: product contains sodium azide.
